

**What are you doing to ensure that State AED Laws are being followed?
Do you want an economical AED & first aid program at all your locations?**

First Voice is helping Fastenal and its customers to win the war against the nation's leading killer, Sudden Cardiac Arrest (SCA). First Voice provides a full line-up of automated external defibrillator (AED) and first aid solutions with convenient and high-value options.

No matter what AED you buy – that is only part of the solution. While Good Samaritan language protects users of AEDs, companies and organizations that purchase AEDs are required to abide by their state's civil liability immunity laws for AED acquirers. Many AED distributors historically have not provided the correct guidance to their customers regarding this blanket of legal protection. Fastenal will make sure your AED purchase provides a complete solution that creates synergies in your AED & first aid programs.

**All First Voice AEDs and AED packages include the following components
that no other supplier provides.**

- ✓ Rx (Prescription for the AED)
- ✓ AED inspection tag
- ✓ AED acquirer state law & compliance checklists
- ✓ AED Policies
- ✓ AED Fast response kit (scissors, razor, gauze, instructions, tamperproof sealed, CPR barrier)
- ✓ AED administrator toolkit (AED drills, AED protocols, etc)
- ✓ AED/CPR Poster
- ✓ AED/First aid Evacuation map decal set
- ✓ CD for employee training on AED use (or online demo)
- ✓ Technical assistance including post-event review services at no charge
- ✓ Free expiration notification of any pads or batteries
- ✓ Free recall or regulatory update notification of any pads or batteries
- ✓ CPR/First Aid/Training certification assistance, if needed (in person or online)
- ✓ Pediatric pad placement reminder card/decal

Medical Direction/Medical Oversight (for Defibrillator Programs):		
Many states and some counties require AED owners/acquirers to have medical direction/oversight (a licensed physician oversees and signs-off on an organization's AED program) to limit an organization's legal liability. First Voice is approved to provide medical oversight of AED programs. Your AED program will be under direct supervision of a licensed physician. You will be provided with assistance for maintenance checks program set up to meet compliancy, training requirements, preparation of any policies/procedures, state or local paperwork / forms, medical consultation, EMS registration/notification/verification, post-event data review, and any other oversight services required by your state.		
First Voice + AED Program Manager:		
An AED & First Aid tracking program. Secure online software tool. Record, track, and monitor AED monthly maintenance checks, pad/battery expirations, training certifications, and more for all sites. Automatic email notification reminders, logs and reports for monthly checks, pad/battery expirations, and training certification renewals.
